KEISER STRENGTH

INFINITY SERIES

FUNCTIONAL TRAINER

NOT JUST BETTER MACHINES, BETTER SCIENCE

Keiser is always challenging the status quo of fitness science by exercising the most powerful muscle: the brain. While competition starts and ends within the limits of a machine, Keiser starts with the potential of the human body and develops smarter technology to unknow the limits of speed, efficiency and safety.
What’s the key to Keiser’s success with groups like firefighters, NASA, professional athletes and the military? It’s an approach built on functional training, which lets them train at the speed they perform their jobs in the real world. True functional training requires training at speed - something you can ONLY do with our machines, as Keiser pneumatic resistance isn’t slowed down by gravity.

**FUNCTIONAL TRAINING**

**THE FUNCTIONAL TRAINER IS THE CORE MACHINE WITHIN THE INFINITY SERIES**

As the name implies, it is a multi-functional machine for a complete body workout. It can be used for hundreds of different exercises, ranging from rehabilitation to sport-specific applications and is one of the most basic and versatile cable machines available.

The Functional Trainer incorporates two adjustable arms, which accommodate high/low training positions. The ability to train at any speed and without any impact makes it the product of choice for many different applications. With its space-saving design, the unit is available with or without a base. (Units without base must be bolted directly and securely to the floor.)

The Functional Trainer features two adjustable arms, which can be adjusted for virtually any training position. Each pulley swings independently of the machine to match the line of pull. In addition to its already space-saving design, the unit can either stand alone or be floor mounted.

**FEATURES**

- Complete control of resistance levels
- Smooth pneumatic resistance to reduce shock loading to connective tissues and joints
- Takes up less space and time with a small footprint and multi-user pieces that allow group training
- Unlimited possibilities for training - any load, any speed, any plane
- Versatility that allows you to customize your workout
- ADA compliant - Section 44 Disabled Access Tax Credit

**SPECIFICATIONS**

- WEIGHT (FLOOR MOUNTED): 130 lbs / 59 kg
- RESISTANCE RANGE BILATERALLY: 0 - 106 lbs / 0 - 48 kg
- RESISTANCE RANGE UNILATERALLY: 0 - 53 lbs / 0 - 24 kg
- CABLE LENGTH BILATERALLY: 72” / 1829 mm
- CABLE LENGTH UNILATERALLY: 144” / 3658 mm

**DIMENSIONS**

- HEIGHT ARMS UP (WITH BASE): 93” / 2362 mm
- HEIGHT ARMS DOWN (WITH BASE): 62” / 1574.8 mm
- WIDTH ARMS OUT (WITH BASE): 94” / 2387.6 mm
- BASE WIDTH: 84” / 2133.6 mm
- DEPTH: 48” / 1219.2 mm
- WEIGHT (WITH BASE): 300 lbs / 136 kg
